

Juan Paolo Dente

IT SUPPORT PROFESSIONAL · NETWORK & CYBERSECURITY

paopaodente@gmail.com | linkedin.com/in/juan-paolo-dente-b09b8595 | github.com/NitroAtomic | Philippines

I keep systems running and people working: troubleshooting hardware and software, handling remote desktop support, and resolving service desk tickets end to end. Currently with the Department of Public Works and Highways while finishing a BSIT in Network & Cybersecurity at Mapúa Malayan Digital College.

EXPERIENCE

Administrative Aide IV, Planning & Design Section

DPWH · Capiz 1st District Engineering Office — Oct 2025 – Present

Handle incoming and outgoing communications, maintain records and reports, and support technical staff with administrative and documentation tasks.

Senior Administrative Assistant III

DPWH · Central Office — Apr 2022 – Dec 2022

Provided administrative and IT-related support, configured Microsoft applications for staff, and digitised office documents for archival and retrieval.

IT Service Desk Analyst

Accenture Philippines — Jul 2018 – Feb 2020

Delivered Tier 1 and Tier 2 support to store sites across multiple regions and time zones, managing incident tickets through to resolution and supporting PC hardware, desktop operating systems, business applications, peripherals and POS systems. Coordinated with vendors on replacement parts, dispatched field technicians, and wrote knowledge base articles.

IT Store Support

Forever 21 · global store support, from Manila — Sep 2016 – Jun 2018

Supported Forever 21 stores worldwide from the Manila hub, diagnosing hardware and software faults, maintaining POS terminals, and keeping store IT running through peak retail hours across multiple time zones.

Remote Desktop Specialist

PeoplePlusTech Inc. · deployed to Accenture, Geek Squad account — Jun 2013 – Jan 2016

Performed advanced software repair, installations and virus removal on customer machines through remote service tools. Appointed Tech Lead for a small group of new agents, coaching them through escalations. Worked to defined SLAs in a team environment.

EDUCATION

BS Information Technology, major in Network & Cybersecurity

Mapúa Malayan Digital College — 2024 – Present

Information & Communication Technology

Premiere Computer Learning Center — 2011 – 2013
